Concept

Modern with a classic twist

Delta 26 Open was developed with the ambition to create a modern and efficient daycruiser with the flair of a classic runabout. The result is a unique combination between daycruiser and walkaround and has been awarded with the prestigious Swedish Design S Award.

“Delta 26 stands out with its charming space-efficient arrangement. Classic sea-worthiness combined with futurism and elegance expresses a clear maritime identity from stern to bow. Energetic in every detail”, the Design S jury said.

The twin-stepped air supported v-hull is paired with either a D3-220 diesel engine for class leading fuel economy, or the optional V8-380 for speeds over 50 knots.

Arrangement

CABIN: DOUBLE BERTH FORWARD, SEPARATE HEAD AFT.

COCKPIT: AFT SOFA/SUNBED WITH FOLDING BACKREST, CONCEALED GALLEY UNDER DRIVER'S SEAT.
