

DELTA 33 COUPÉ

Based on our successful Open series, the new Delta 33 Coupé is developed in collaboration with Swedish naval architect Ted Mannerfelt. The ambition has been to create a multi-purpose yacht that benefits from the most modern design trends, advanced technologies and efficient hydrodynamics. The result is a fuel economic and responsive cabin cruiser with a panoramic sun roof, unique for its size. The interior is highlighted by exceptional visibility, innovative solutions, high-end finishes and a wide range of styling options.
